

# LIVEPRODUCTION SOFTWARE

# CONTROL • EFFICIENCY • PRODUCTION

- LiveProduction is the best way to make the production system efficient. The solution to keep under control all the orders and the organisation of the production area in manufacturing companies.
- Each workstation is equipped with a tablet that communicates with a server, either through Wi-Fi or via a LAN cable.
- The production progress is displayed in real time on the TVs, computers and tablets.

- Analysis by department
- Analysis by order
- Analysis by article
- Analysis by line
- Analysis by shift
- Analysis by operator
- Defects tracking
- Immediate monitoring reports
- Real time efficiency statistics
- Piece tracking using QR Codes
- Office to tablet messaging
- Input from sensor
